BEST VAPOR BARRIER PRODUCTS FOR ROOFS

INTERIOR VAPOR BARRIER PRODUCTS

These are products you can install inside your attic on the underside of the roof.

- fluid-applied vapor barriers
- closed cell spray foam

EXTERIOR VAPOR BARRIER PRODUCTS

If you're replacing your roof, there are a few products installed before placing shingles.

- Peel-and-stick membranes
- Roofing underlayments

WHICH SHOULD YOU CHOOSE?

Consider the following and contact a professional roofer.

- Climate zone
- Roof design & stage of construction
- Existing leaks or other roof issues
