

at a glance

CAN BLOWN-IN INSULATION BE INSTALLED BY HAND?

BLOWN-IN SHOULD NOT BE INSTALLED BY HAND.

- It will take too long.
- It will also require personal protective equipment (PPE).
 - Mask
 - Gloves
 - Eye protection

DIY BLOWN-IN USES A RENTED BLOWING MACHINE.

- Available at some Lowe's and Home Depot
- Could cost \$200 per day to rent
 - Rented machines are slow
 - Could take 3 to 4 days

CONSIDER HIRING A PROFESSIONAL.

- Con: more expensive than a DIY.
- Pros:
 - Faster install
 - Maximized performance
 - No personal responsibility
 - Insured insulation
