## CAN SPRAY FOAM INCREASE MY RESALE VALUE?

### INSULATION DOES NOT IMPACT HOME RESALE VALUE

No insulation product will increase your resale value. Internal factors like insulation and energy consumption costs are **not considered during the appraisal process.**

### STILL WORTH INVESTING IN

Even if you plan to move, you could benefit from spray foam insulation.

- The longer you plan to live in your home, the more your investment cost can be recouped through lower energy costs.
