

at a glance

HOW LONG DOES CRAWL SPACE ENCAPSULATION LAST?

- The closed cell spray foam should last indefinitely, since it is not exposed to ultraviolet rays.
- Plastic sheathing should last for a long time, but may require repairs if high foot traffic causes tears.
- Dimple mat is made of plastic and should not deteriorate.
- Crawl space tape should stay sealed, as long as the crawl space conditions are kept dry and regulated.
- Insulated door panels should last indefinitely, but can be replaced.
