## HOW MUCH DOES CRAWL SPACE ENCAPSULATION COST?

In Climate Zone 5, crawl space encapsulation can cost anywhere between \$4 and \$8 per square foot.

### **FACTORS FOR THE PRICE**

- Removal of existing insulation
- Accessibility of the crawl space
- Height of the crawl space walls
- The foundation material
- Thickness of the vapor barrier
- Addition of optional dimple mat
- Number of support pillars
- Installation of dehumidification system

Larger, complex crawl spaces are more expensive to encapsulate.
