

at a glance

IS CRAWL SPACE ENCAPSULATION TAX DEDUCTIBLE?

Crawl space encapsulation is **not** tax deductible, but it is eligible for a federal tax credit.

- Tax deductible: cost is subtracted from your taxable income.
- Tax credit: the exact amount is returned through your tax return.

A \$4,000 encapsulation project will maximize this tax credit.

The federal tax credit covers 30% of project cost, up to \$1,200.
