## IS SPRAY FOAM INSULATION BAD FOR THE ENVIRONMENT?

### **SPRAY FOAM INSULATION CANNOT BE RECYCLED.**

- Spray foam is chemically manufactured.

### **SPRAY FOAM IS MEANT TO LAST AS LONG AS A BUILDING.**

- UV rays can break down spray foam.
- When protected from UV rays, spray foam should last indefinitely.

### **SPRAY FOAM MAKES BUILDINGS MORE EFFICIENT.**

- Spray foam limits air leakage.
- Less air leakage means less energy waste.
