IS SPRAY FOAM WORTH THE COST?

Spray foam is one of the most expensive types of insulation. However, spray foam also comes with plenty of worthwhile benefits.

BENEFITS OF SPRAY FOAM

1. A more comfortable home.
2. Better indoor air quality.
3. Fewer pest infestations.
4. Less wear-and-tear on your HVAC.
5. Reduced risk of mold and mildew.
6. Consistently lower energy costs.
7. Expected to last as long as your home.

Spray foam also qualifies for a federal tax credit, which can help cover the investment cost.
