WHAT IS FLASH AND BATT INSULATION?

TRADITIONAL FLASH AND BATT

Flash and batt insulation combines spray foam and batt insulation.

- 1 inch closed cell spray foam
- Fiberglass batt

GOAL OF FLASH AND BATT

Better performance at a lower cost.

- Spray foam offers an airtight seal.
- Batt is more affordable.

FLASH AND BATT RISKS

In Climate Zone 5, there are risks.

1. Potential for batt to gap or sag.
2. Potential for serious condensation.
3. Potential for faulty installation.
