## WHAT IS SPRAY FOAM INSULATION MADE OF?

### **TWO CHEMICAL COMPONENTS**

- A-Side (isocyanate)
- B-Side (polyol blend)

These two products manufacture polyurethane plastics.

### **MORE ON ISOCYANATE**

Isocyanates are chemicals composed of carbon, hydrogen, nitrogen, and oxygen.

### **MORE ON POLYOL BLEND**

Polyol resin is composed of molecules with multiple alcohol or hydroxyl groups attached to them.
