Benefits/Perks:

- Family friendly work environment
- Vacation PTO
- Sick PTO
- Health insurance
- Company paid training
- Company uniform and annual uniform budget
- Company-supplied vehicle

About our Company:

South Central Services began in 2015 by brothers, Kilian and Zeshan Agha. Originally SCS started as a service company for Refrigeration and HVAC equipment, but a few years into starting the business, Spray Foam Insulation was added as an additional service. Both Kilian and Zeshan have an innovative mindset which drives their passion as business owners. They took interest in the insulation industry and saw the need in our area and surrounding areas for high-quality installation of insulation. Kilian and Zeshan

found that their favorite part of the business was insulation work, so in November 2022 it was decided to focus our efforts there for great success.

Our team at South Central Services serves each other, our customers, and community with high quality work and customer service. We care for our customers individually with a desire to handle their insulation needs from start to finish. South Central Services has a small business feel to the work environment and plans to keep it that way as more members are added to the team with the business in a growing stage.

We are committed to offering our customers the best solutions to increase building efficiency, comfort, and sustainability in the most transparent way. We strive to create an atmosphere where employees are positively challenged to learn, develop, and reach their highest potential.
